CONNECTING CODERS AND DEVELOPERS TO GLOBAL LEARNINGS, INNOVATIVE PROJECTS AND EXCITING CAREER OPPORTUNITIES

In its inaugural year of launch, **Global DevSlam** is the world's leading learning, skills and talent acquiring networking event for the coding and development community.

It gathers together the go-getters in frontend and backend development of top coders, developers, data scientists and software engineers, to empower key stakeholders of the digital economy for effective societal transformation.

Committed to support the UAE's mission of creating the best eco-system in the world for coders and developers to grow and thrive. **Global DevSlam** showcases the creative ingenuity behind some of the industry's most ground-breaking technology. Inspiring a new generation of knowledge and innovation.

Connected together with **GITEX GLOBAL - DevSlam** will be the region's first-ever event where public and private enterprises with ambitious tech transformation projects, can engage, identify and hire top coding and developer talent from around the world - facilitating the largest coding recruitment drive in the region.

مقر المبرمجين
coders(hq)

The event is **launched with the support of Coders HQ**, an initiative that centres and attracts the biggest global tech influencers to the local tech community, with a prime objective of enabling and igniting programming passion for coders by learning from the challenges and personal life stories of prominent people in tech.

100,000 Golden Visas

for qualified talented coders from around the world

to live and work in the safest city, the centre of the world, connecting innovative tech products from the West to amazing skilled manpower from the East!

“

Strengthening the programming community in the country is an important goal for Coders HQ. The initiatives put forward will help us understand the current state of the coder community, as well as what is required to build their capability, in order to empower them with required skills for future occupations.

– H.E. Omar bin Sultan Al Olama

UAE Minister of State for Artificial Intelligence, Digital Economy and Remote Work Applications
