AN OPEN DOORWAY INTO THE FUTURE - THE LARGEST CONFERENCE PROGRAMME IN THE HISTORY OF CABSAT

Three days, seven conference streams exploring the key trends, opportunities and challenges affecting industries

150+ | 110+

SPEAKERS

HOURS OF CONTENT

The stage is set – the world's topmost media company leaders, production houses and entertainment tech disruptors will deliver wave after wave of insights and inspiration over the action-packed days.

Focusing on the present while keeping a keen eye on the future, Content Congress will delve into a number of key topics impacting the content creation community, topics will include the boom in Arabic originals, Gen Z and the Metaverse, the future of Esports, and unlocking content distribution.

CONTENT CONGRESS

CELEBRATING COMPELLING ENGAGING CREATOR ECONOMY

The events of the last few years have sparked irreversible global change across major industries, including media, creating new forms of cross-border, regional collaboration. Focusing on the present while keeping an eye on the future, Content Congress will delve into a number of key topics that are impacting the content creation community.

TOPICS:

- Gen Z & the Metaverse
- How Will Esports Be Part Of The Metaverse?
- Adding AI To Your Content
- How To Stand Out As A Vlogger?
- Paradox of streaming vs linear
- The creator economy Boom & the role of Social media

SATEXPO SUMMIT

SPEARHEADING SUSTAINABLE SPACE EXPLOITATION

SatExpo Summit, now in its 6th year as a dedicated event within CABSAT, is THE gathering for the satellite and space tech industry. Gathering leaders and innovators from around the world, with a focus on the MEASA region, the event offers unrivalled opportunity to gain visibility, showcase solutions, demonstrate expertise and engage with peers, partners and generate new business.

The summit will address strategic industry topics including:

- Space sustainability
- Emerging business and financing models
- New tech including AI, ML and software-defined satellites
- A focus on satellite-enabled infocomms
- Satellite and space security and risk mitigation
- Attracting, retaining and training talent to support business and industry growth

SAUDI PROGRAMME

Saudi Arabia is fast becoming a digital media and entertainment hub in the region, with the media sector currently at a size of SAR 17.4 billion, leading the Middle East and North Africa (MENA) media market with about 30% of the market share.

Industry experts and leaders will dive into the key topics affecting the industry, including how TV viewing behavior in KSA drives content & advertising decisions, capitalising on the growing value of the Saudi media sector in Saudi and the impact of the recently unveiled \$1.1bn plan to create the Saudi digital entertainment and media hub.

BRAINSTORM

infinityset

BRAINSTORM

Brainstorm Suite 5

Brainstorm Suite 5, the latest version of the company's flagship products InfinitySet, Aston and eStudio, includes a plethora of new features and enhancements while adding a tighter integration with Unreal Engine that will streamline and improve XR content creation and workflows regardless if using LED videowalls or chroma sets.

CASTLAB

castLabs' playback software and Widevine CAS service solutions for Android TV allow operators to simplify broadcast/satellite and streaming workflows. Discover how our secure hybrid DVB/IPTV and OTT video technology can provide major cost reductions and faster time to market.

Booth# PD48 | castlabs.com

> castLabs

DISGUISE

Disguise's Extended Reality (xR) workflow represents the next generation of virtual production technology. Combining leading LED technology, advanced camera tracking and real-time graphics rendering into one seamless workflow, disguise xR creates a virtual environment with augmented reality elements that are visible both live on set and directly in-camera.

PROMAX ELECTRONICS

The RANGER Neo 4 is a professional Field Strength Meter and Spectrum Analyzer that is part of a new breed of multifunction, TV, Satellite, CATV and WIFI analyzers. They are intended to help expert installers and broadcast engineers to deal with the many challenges brought about by the wireless world and the new video delivery platforms.

ROSS

Voyager is Ross Video's latest graphics platform, powered by Epic Games' Unreal Engine 4.27. Voyager leverages the world's most powerful and realistic renderer, enabling its use for Augmented Reality, Virtual Studio and XR Virtual LED Studio environments.

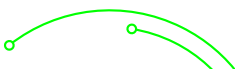

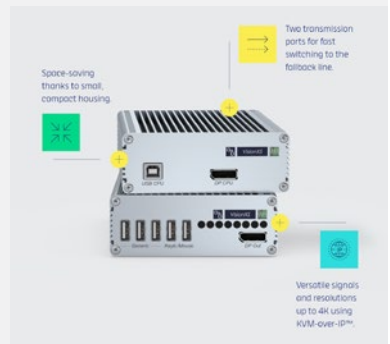

GUNTERMANN & DRUNCK

GD Visions

Small housing, great performance. The new VisionXS KVM series. Discover unlimited possibilities with G&D's new high-performance KVM system.

- Integrated matrix support
- Transmission over IP-based networks up to 10Gbit/s
- Redundant transmission interface
- New and efficient mounting solutions

VIALITE

ViaLite's '6 GHz Outdoor Module' RF over fiber link is IP55 rated so can be used outdoors without the need for an additional enclosure, even in harsh environments! It covers 10 MHz - 6 GHz and VHF, UHF, L, S and C-bands for Broadcast and Satcom applications. 5-year warranty included!

ASIASAT

SAILAS

With the convergence of video streaming and data services, AsiaSat's maritime broadband solution 'SAILAS' offers end-to-end managed connectivity services. From satellite capacity, terrestrial connectivity, hub facilities to data connectivity along with value-added services including video streaming, antenna system solutions and OBM, SAILAS enables crews and passengers connected and entertained at all times.

TELEDYNE

New AXIOM Modem Family
Meet the new Teledyne Paradise Datacom AXIOM family of IP-centric modems. Building upon the AXIOM-X ultra-small, rugged modem card for manpacks and airborne platforms, the new models add rack-mount and rugged enclosures to the available options. All are capable of supporting up to 575 Mbps aggregate throughput and 160,000 IP packets per second.

TRAVELLING TO DUBAI

Effective 26 February 2022, passengers travelling to Dubai from all countries (GCC included) must fulfil one of the below requirements

- Present a valid vaccination certificate(s) reflecting that the passenger is fully vaccinated with a vaccine approved by the WHO or the United Arab Emirates (UAE), and includes a QR code
- Present a valid negative COVID-19 PCR test certificate issued within 48 hours from the time of sample collection and issued by an approved health service provider with a QR code
- Present a valid medical certificate with a QR code issued by the relevant authorities that the passenger has recovered from COVID-19 within 1 month from the date of recovery to the date of arrival.

If requested, passengers must undergo a PCR test on arrival in Dubai and self quarantine until they receive a negative result. Passengers who test positive for COVID-19 must follow the guidelines issued by the Dubai Health Authority.

Note:

Printed or digital PCR test certificates or vaccination certificates are accepted in English or Arabic and must include a QR code. SMS certificates are not accepted.

COVID-19 PCR test or vaccination certificates in other languages are acceptable if they can be validated at the departure point.

COVID-19 vaccination certificates without a QR code can be accepted for travel to Dubai as long as the vaccination certificate is issued by test centres/organisations recognised/approved by the national health authorities of the country.

PCR tests must be based on a molecular diagnostic test intended for the qualitative detection of nucleic acid for SARS-COV-2 viral RNA. Rapid antigen, antibody or any form of rapid lateral flow tests and home test kits will not be accepted.

Please check with your airline for the most up to date regulations before your travel to Dubai.

ATTENDING THE EVENT

The Organiser is committed to ensuring that all stages of the visitor journey at CABSAT 2022 are safe and that a range of visitor services are available to provide information on COVID-19 measures including hand sanitisers at multiple locations across the venue, Health and Safety Wardens monitoring mask wearing.

All visitors must correctly wear a face covering or face mask at all times, unless they have a medical exemption approved by Dubai Health Authority (DHA).

Visitors are not required to provide proof of vaccination or a negative PCR test result to enter the venue.

We are committed to providing you with a safe environment to do business, in accordance with all the health & safety guidelines set out by the local authorities. The event will be delivered with strict standards of health & safety precautionary measures including contactless transactions and hygiene protocols at all times.

**YOUR HEALTH &
 SAFETY IS OUR
 TOP PRIORITY**

- Dubai was voted the safest city in the world to attend an exhibition
- DWTC venue is certified with the prestigious Bureau Veritas SafeGuard Label

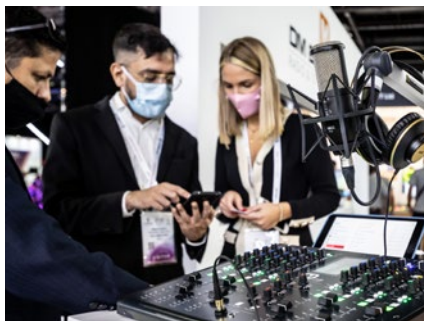

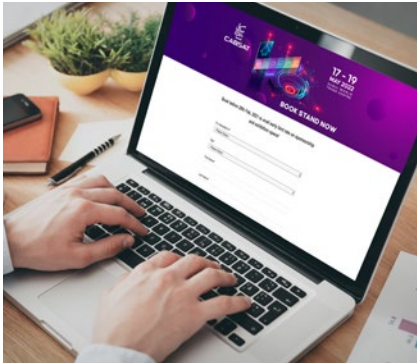

PROVIDING A SAFE ENVIRONMENT TO DO BUSINESS FACE-TO-FACE

CABSAT 2021 safely welcomed attendees from over 70 countries.

HERE'S A PICTURE GALLERY OF THE EVENT
